LEADERS VISIT PALACE

On 17th May we had our leadership graduation dinner. It was a special night of fun and heaps more fun. It was a time that we saw our lecturers as humans who had fun too, and our

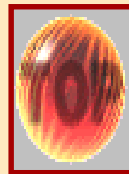

fellow students were something else.

Times like this will always be remembered.

It was a great night, even though all we did was just get our certificates and have dinner.

Darshana Singh

Our Unilearn Foundation Leadership course teaches some of the most essential skills that most

of us lack and we are most fortunate to have the opportunity to go through this course here in CQU.

Not only did it teach us how to become role model leaders, it also taught us to become more assertive in terms of team work, cooperation and, last but not least, team spirit.
